Human Rights Council

50th session. Item 5.

Celebration: 50 sessions of the HRC.

Geneva, 15th of June 2022

This statement was not delivered due to the closure of the meeting.

Dear People of the Earth,
Mister President,
Excellency's,
Ladies and Gentlemen,
Greetings of creation, for a better future for all,
Words of reason, peace and emotion.

In the name of people in need of recognition for their situation, twelve years ago, I spoke in this room for the first time. In the last 7 years, for the Center for Global Nonkilling, I served at all sessions of the Council and made submissions for all sessions of the Universal Periodic Review.

Besides being myself a human being ..., serving Life, Peace and Human Rights is the best thing I ever did, the best job (volunteering position) I ever got.
Thank you, I wish you all the same!

Dear Nation States, Dear Members of the Council, Dear Representatives, I do not dwell in your divisions and disagreements: regarding Human Rights, it is "people first".

The good news is that in this beautiful "dialogue of civilizations" room, you, Nations States, you are a political infrastructure so deeply enshrined in the fabric of our lives, in our geopacific world, that you are here to stay.

The bad news is that some of you, States, still go to war (or give themselves means to go to war), or commit massive violations of human rights. All our Nations need to progress, overall in democracy so our voices, "we the people", are well heard and so forth all our rights are lived and expressed peacefully, promoted and fulfilled, or when needed redressed.

In the name of Life and Living, I wish to the United Nations and to the Human Rights Council as many more years of efficient work as needed; as needed to create a world where everyone can thrive happily: because it is happy people that will breed and create a happy and sustained world, for us as for humanity, now and in the future.

Thank you Mister President !
